

The Innova mirror catalogue...

is here to serve as inspiration as well as to provide information about our extensive mirror range. The catalogue presents our latest products – designed to serve a multitude of markets. Our customers include all types of businesses – from high volume mass retail to home décor and gift retail specialists.

Mirrors for every space

Mirrors provide a means to make simple yet affordable interior design changes, and Innova therefore supply a wide range of styles. We are confident that this year's extended range will enable you to offer your customers a broad choice – whether they are looking for a traditional framed overmantel mirror or a contemporary decorative frameless piece.

Packaging optimized for your business and customers

All our framed mirrors have dual packaging thus assisting in the supply to your customer from warehouse or retail outlet. Each mirror is first individually packed with heavy duty corner protection and shrinkwrapped, then further packed into individual cartons. Each carton is marked "fragile" and has a colour label showing the product to minimize handling. Wherever possible, cartons have a maximum weight of 20kg and the majority of the product cartons are adapted to fit optimal pallet despatches.

With safety and the environment in mind

All shrinkwrap used in Innova packaging is made of polypropylene and no PVC is used for packaging. Each step of production from raw material to finished product, has been subject to strict quality control. Innova mirrors meet with BS EN 14749:2005 and BS 7449:1991 standards. All wood used is chain of custody verified (FSC etc) and from managed forests. All MDF is made to the EU compliant E1, E1 and E0 standards, fulfilling minimum use of formaldehyde content. As a step to further guarantee quality, Innova has been approved as a member of Sedex, the Supplier Ethical Data Exchange. Sedex is a membership organisation for businesses committed to continuous improvement of the ethical performance of their supply chains so you can be sure all our products are ethically sourced.

Innova use quality mirror glass 3 to 5mm thick. All exposed glass edges are polished and all mirrors have pre-fitted heavy duty hangers for portrait or landscape hanging where applicable. All mirrors come with instructions for safe hanging.

We look forward to hearing from you

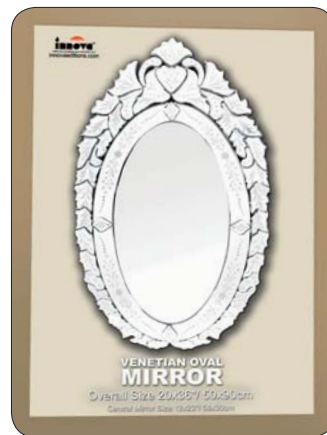

This catalogue presents our most popular "off the shelf" mirrors. On page 30 you can also see the bespoke mirrors we offer. If you still can't find what you are looking for, don't hesitate to get in touch. We introduce new products throughout the year and often work together with retailers to develop products suited to their needs. Please contact us should you wish to visit our showroom in Weybridge to see the full range.
